

Introduction: Getting perspective... then and now.

- Something to consider when you're "waiting" on God:

"To believe actively that our Heavenly Father constantly spreads around us providential circumstances that work for our present good and our everlasting well-being brings to the soul a veritable benediction. Most of us go through life praying a little, planning a little, jockeying position, hoping but never being quite certain of anything, and always secretly afraid that we will miss the way. This is tragic waste of truth and never gives rest to the heart. **There is a better way. It is to repudiate our own wisdom and take instead the infinite wisdom of God.**"
