Why I Believe
Recommended reading list and Bibliography

If you’ve been listening to Why I Believe, you may have noticed that I’ve referred to multiple books and resources that deal with evolution and the origin of life. We’ve had lots of people ask what those resources are, so I thought I’d just post them here for you. Though these resources are filled with thought-provoking material, I am not necessarily endorsing them. As you are on the journey of sorting out why you do or do not believe in creation, feel free to take a look at these and use them to help you grow and think more deeply.
Recommended Reading List

- The Reason for God: Belief in an Age of Skepticism, Tim Keller (chapter 13)
